TALBOT & DAVIS

AT 128 THAMES STREET

NEWPORT, R. I.

Terms:—$6,00 PER YEAR.

ADVERTISING TERMS:

Advertisements will be inserted for $1,00 a square of ten lines or less for one insertion, and 25 cents for each subsequent action.

Yearly contracts will be made with those who wish to advertise extensively, on reasonable terms.

The privilege of yearly advertisers (of all classes) will be limited to their own immediate business, in their own name. It does not include Legal Notices. Auction Sales, Lost and Found, Cards, Wants &c. When contracts for yearly advertising are discontinued before the year expires, the whole year will be charged for, or the publishers will claim the right to charge for the advertising done at the transient rates.

Editorial Notices or Articles to be inserted in the reading columns will be charged fifty per cent. extra, exclusive of the space occupied.

Special Notices will be charged one-third more than the usual advertising rates.

All transient advertisements must be *paid in advance*. Yearly or regular advertisers will be required to make quarterly payments on demand.

THE MODEL COOK!

AN AIR TIGHT STOVE

WITH TWO OVENS

Surpasses all others in

Economy, Durability, Perfection of Finish, Capacity, Beauty of Design and Convenience.

Can be used with Water Pipes attached to Reservoirs, or with movable Reservoirs, has a

Ventilated Roasting Oven,

Which can be used separately or in connection with the

BAKING OVEN,

By removing a single plate, thus giving one of the largest ovens ever constructed.

We respectfully invite those who are not satisfied with their present arrangements for COOKING, to make careful examination of this STOVE, honestly believing that it combines the elements of simplicity, utility, and economy, more perfectly than any apparatus heretofore introduced. For sale by

STARCH GLOSS.

THE MOST ECONOMICAL ARTICLE that can be used, costing only about *one cent* to do the washing of an ordinary sized family.

Gives a fine, ivory-like polish to linen or muslin.

Effectually prevents the iron and dust from adhering to the cloth.

Makes old linen look like new.

Goods done up with it keep clean much longer, thereby saving time and labor in washing.

Warranted not to injure the clothes.

25 cents per cake. Liberal discount to the trade.

IMPERIAL BLUE.

BEST IN THE WORLD.

Spirits in hand as well as soft water.

Warranted not to streak the clothes.

10 cents per box. Liberal discount to the trade

Agents wanted everywhere, to sell the above articles, to whom we offer extraordinary inducements.

[From the Newark Journal.]

NOT PARTED.

They are not parted, though their fee',
Have wandered for in different ways:
And though they never see each other meet
On Winter eves or Summer days,
It matters not though realms divide,
Though boundless seas between them roll,
For still defying wind the tide,
Heart yearns to heart and soul to soul.

They are not parted—only those
Are parted whom no love unites;
Their absence breaks not our repose
Who have no share in our delights:
They may be by our side, and still
As from us as a pole from pole,
Who lack the sympathetic thrill
Of heart to heart to and soul to soul.

AN ASTONISHED OLD LADY.—An old lady, whose home is in the country, who hadn't been in Cincinnati for several years, came in yesterday to do some trading. Her principal business being one of the few eventful incidents of her life, the purchase of a new bonnet. She hadn't had a new bonnet since she was to Cincinnati the last time, and that was seven years ago; nor had she seen any of the new-fangled contrivances—"frilles light as air"—which the women wear now-a-days in the place of their bonnets. As a new bonnet was the engrossing theme in her mind on entering the city, of course she was on the alert at once to see what the fashion was. Imagine her consternation, when on standing on South street, watching the people as they passed by. For a time she was perfectly speechless, and she was observed to throw up her hands, and exclaim:

"For the Lord's sake! are wimmin all crazy, gaddin' through the streets with cookin' on their blessed heads? What's become of all their bonnetts?"

She went into a millinery store, and accosted a "gentlemanly and obliging" young lady in attendance:

"You see I come on the hull way from Clermont county to buy a bunnet. I've worn this one goin' on eight years. It's a little out of fashion I reckon, and I want one that is right in the style. I didn't know what the wimmin was wearin', so I stood out here a blessed hour to see 'em pass, and I hope never to see my old man again if I wear one with a bunnet on durin' the hull time! Some had a doll's handkercher laid on the top of the head; others had what to-kal for all the world like oyster patties trimmed with blowed glass, and I declare to goodness if one woman with a big rutabaga turnip on the back of her head, in a hurry, wore any coverin' keeping a *yeller cluster tickets tied on with a ribbin!*"

When informed that the styles she had seen were the latest thing in the bonnet line, the old lady's astonishment increased, and she was thoroughly bewildered by the time she had examined each of the varieties embraced in the milliner's collection, particularly when she learned the accompanying prices. She looked at her old bonnet, which she had preserved so carefully during the changing fashion of seven years, and compared it with the fashions of today, when the old lady fairly wept. She declared it was enough to drive one crazy to see such vanities as the women are running to now-a-days. "Twan't so when I was a gal," said she. "Women wore bonnets in them days that kivered their heads, and tied 'em under the chin instid of fast'n 'em to the back hair." She left in great disgust, and said she would go right back to Claiborne and wear her old bonnet till milliners got to making bonnets again.

The Daily News

NEWPORT.

Newport, Monday, February 18, 1867.

DEATH OF PROFESSOR BACHE.

Alexander Dallas Bache, so well known to the scientific world, died in this city yesterday (Sunday) morning, aged sixty years.

Professor Bache was the grandson of Richard Bache and Sarah Franklin Bache, and the son of the late Benjamin Franklin Bache, and the great grand son of Dr. Benjamin Franklin. He was born in Philadelphia July 19, 1806.—He was educated at the United States Military Academy at West Point, from which institution he graduated with the highest honors of his class and became a Lieutenant in the Engineer Corps in 1825. It is said that during his connexion with the Military Academy he never received a single discredit mark, and now when the sum of his life has been made up, his stainless record at the Academy, remains untarnished by any subsequent demerit. In 1827, he became Professor of Mathematics in the University of Pennsylvania where he remained until he was appointed President of Girard College, and he then went abroad and travelled in Europe with the view of further qualifying himself to enter upon the duties of his new position. Upon his return he found the College not completed. He resigned its presidency and became principal of the High School in Philadelphia. He left this situation in 1843 upon receiving the appointment of Superintendent of the United States Coast Survey. In the Annual Reports of this Bureau of the Public Service are recorded the labors of this distinguished devotee of science, the benefits of which to commerce and navigation are incalculable. He was one of the Regents of the Smithsonian Institute at Washington, and at one time President, and until recently, one of the most efficient members of the American Association for the advancement of science.

Prof. Bache was married in early life to an accomplished daughter of the late Christopher Fowler of this city who survives him, but he has died childless. His last sickness was long and distressing, and the great sorrow we feel at his departure is tempered by the reflection that his death is the end of his sufferings.

New Developments.—The latest intelligence we have at this writing from the President's attempts to get up a new policy, is the following extract from a Washington correspondent, which brings the account of things up to Friday night. The information states:—

The Johnson compromise scheme has been busily caucussed to-day among the President's old and new friends. Two secret messengers from the President spent the whole day on the floor and in the cloak-room. The military bill, with modifications of the Bingham amendment, was shown to those deemed trustworthy. In the second meeting last night the following participated:—Messrs. Hubbell, Delano, Buckland and Bingham of Ohio; Laflin, Ketchum, Dodge and Raymond of New York, and Blow and Blaine. On Mr. Johnson's part were Philadelphia and Cleveland Convention men again. The members named above for the most part slipped quietly out of the House last night and went secretly to the place of meeting. The plan of the President, as represented to-day in this circle, is the military bill with the Blaine amendment; universal suffrage, to include all rebels, and a pledge to admit top Congress as soon as the amendment is adopted.—These terms are looked upon with great suspicion as a trick to break up the two thirds majority, and defeat the pending measures. The secret character of the midnight meeting, the political character of the President's messengers, and the great activity of the weakest men named above, are the cause of this suspicion. The President is severely denounced for using such means to reach Congress. The strength of the movement will be developed by to-morrow, as the matter became known to-day. The greatest efforts have been made to keep all reference to the matter from the papers.

Midnight—Nearly the same party is in session to-night, at the private residence of Mr. Dodge, of New York. The change is caused by the desire to keep the meeting secret. The fear of impeachment and the unexpected repudiation by the South are understood to be the reasons for the President's strange course.

In the case of Gilman vs. the United States, an important decision has been made in the Court of Claims, affecting many thousands who were officers of the army during the late war. It is to the effect that the servants' allowances of all officers who were in service at any time between the 1st of May, 1861, and the 3d of March, 1865, should be equal to the pay of a private soldier during that time for each servant allowed and employed. As only $11 per month for these intervening ten months was paid, instead of the $16 authorized, every officer will be entitled to $50 additional for each servant employed. The whole amount collectable under the decision is estimated to be about $3,000,000.

The case of Col. A. B. Magruder, who asked to be admitted to practice in the Supreme Court of the District of Columbia without taking the test oath, will be carried before the United States Supreme Court by his counsel.—It will be remembered that a few days since the majority of the judges gave their decision against the admission of Mr. Magruder, and it is now understood that his counsel will base their action upon the ground that the justices of the District Supreme Court are guilty of a contempt of the United States Supreme Court, which has declared that the test oath is unconstitutional, and at which court Mr. Magruder is a practicing attorney.

THE THIRTY-NINTH CONGRESS.

Second Session

Senate. (Continued).

Several amendments of no great importance were agreed to, when Mr. Sumner moved to amend by providing that the pending constitutional amendment shall be valid when ratified by three-fourths of the legislatures of the States represented in Congress.

A long debate ensued, which was participated in by Mr. Salisbury, Johnson, Hendricks, Williams, Doolittle and others, which was interspersed by motions to adjourn, and offers looking to a compromise.

At quarter to three the vote was had and Mr. Sumner's amendment was rejected—yeas, Messrs. Howard, Lane, Pomeroy, Sprague, Sumner, Wade and Yates; nays, 25.

At 3 o'clock Mr. Henderson offered the Louisana bill, in a modified form, as a substitute for the pending bill, and it was read at length.

The Income Tax.—The changes which are proposed in the new Internal Revenue bill are matters of very widespread interest. The most considerable of these changes is the abolishing of the distinction now existing in the rates of taxation on incomes above and below the line of $5,000. All incomes are hereafter, if the proposed law goes into effect, to be taxed at the uniform rate of five per cent. which will be no slight advantage to those whose incomes are above $5,000. But the change which will be most beneficial and will affect a relief to multitudes of people, is that which exempts from taxation $1,000, instead of $600, as the present law provides. Our high income taxes have been regarded as a part of the price we have to pay for the salvation of the republic. But they have been felt to be a very heavy burden among that large class of persons who have to support a family out of a small salary, or from the proceeds of a bare competency in the form of fixed capital. To all such, and they are very numerous everywhere, the exemption of the additional four hundred dollars and the consequent saving of twenty dollars a year, will be a relief which they will be sure to appreciate. Even this, however, is in danger of being taken away or annulled, by the higher prices of living which are pretty sure to be created by the exorbitant duties of the Tariff bill and the continued inflation of the currency.

Scare.—On Wednesday night, when the delegation of Templars from Fall River arrived in New Bedford, they were met by Deputy Thomas. Certain rum-lovers seeing the advent of so many strangers, and noticing their acquaintance with Constable Thomas, were seized with a panic. In half an hour the word was passed through the whole city that an awful raid was to be made by some dozen Deputies, and the people of New Bedford were to be deprived of their means of refreshment. So, while the innocent visitors were enjoying the festivities and eatables at Temperance Hall, every man, woman and child connected with the liquor interest were at work, with the perspiration streaming down their faces, hiding rum, gin and brandy in every conceivable place. No thirsty traveller could find a drink that night in New Bedford.—*News*.

The President is at present granting very few pardons to persons who have been engaged in the rebellion, and none at all to those who held high offices under the rebel government. The Attorney General has his whole clerical force engaged upon the list of pardons granted by the President, which was called for by a resolution of the House of Representatives some time since. It is not possible that this information can be furnished before the end of the present Congress, as the number of pardons which have been issued up to the present time is about twenty-one thousand, and the number of parties recommending pardons, the names of whom are required by the resolution, is about fifty thousand.

The Crops.—From our exchanges we learn that the Winter has been an exceedingly favorable one for farming interests. There has been snow enough to protect the wheat, and there is every prospect of abundant crops. Such news is always cheering at this season of the year, and those who are prone to indulge in gloomy forebodings may find comfort in turning their attention to our agricultural regions, from whence come the great necessaries of life. There is an unquestionable antagonism between good crops and hard times, and while we have hopes of the one we need not fear the other.

The Montgomery [Ala.] Mail compares the President's constitutional amendment with that of Congress, and finds the chief difference to be in the omission of the third section, which disqualifies certain persons for office. It remarks that the chief objection against the latter was not to this section, but to the first section, which makes a negro a citizen of the United States, and "forbids a State from depriving him of any rights or privileges which a white man may possess."

The League Island Navy Yard bill passed by Congress simply authorizes the Secretary of the Navy to accept League Island as a depot for iron-clads, and to dispose of the present site occupied by the Navy yard at Philadelphia. It is alleged that this bill was passed with the tacit agreement that for the support it received from certain parties, the Naval School is to be removed from Annapolis to New London.

Crosby and Lee.—Nearly all of the city papers and nine-tenths of the people of Chicago now believe that the reported drawing of the Crosby Opera House by Lee, and the reported sale for $200,000, is all gammon. Potter Palmer, one of the wealthiest merchants, had previously offered Mr. Lee $250,000 cash. Crosby originally paid $400,000 for the house.

A little girl, four years old, was on her way home from church with her father, when they passed a boy splitting wood, and the father remarked, "Mary, do you see that boy breaking the Sabbath?" The child made no reply, but walked home very thoughtfully, and meeting her mother, exclaimed, "Oh, mother, I saw a boy breaking the Sabbath with a big axe!"

Items.

A great many people are planting the Chinese sugar cane in Texas this year.

A colporteur says he could always find sinners because he tract 'em.—[Ex.

Whatever you buy or sell, make a clear bargain, and never trust to 'We shan't disagree about trifles.'

Why is an alliance between two nations like Petroleum? Because it's coalescence (coal essence).

One of the largest owners of real estate in Mobile has deducted one-third of the amount due from his tenants on notes given the past year.

Why is a minister near the end of his sermon like a little ragged boy? Because he's (toward) tored his clothes (close).

"It is never too late to mend," said the old lady when she sat up until 12 o'clock P. M. to darn her husband's stockings.

"Mast head' ahoy!" "Ay, ay, sir," was the answer. Do you see a light? Yes, sir! What light? Daylight, sir!

Joseph Drake, the oldest inhabitant of New Hartford, died on the 2d, aged 92. He leaves forty grandchildren and twelve great-grandchildren.

Call on a business man about business in business hours; attend to your business, and go immediately about your business, in order that he may have time to attend to his business.

The following is a true copy of a note received by a schoolmaster: "Sur, as you are a man of noledge, I intend to inter my son in your skull."

"Mr. Jones, you said you were connected with the fine arts: do you mean that you are a sculptor?" "No, sir, I don't sculp myself, but I furnish the stone to the man what does."

A tall fellow, standing in the parquette of a theatre, was repeatedly desired to set down, but he would not; when a voice from the second circle, called out: Let him alone; he's a tailor, and he's resting himself!

The following was on exhibition at the Pennsylvania State Fair, recently held at Williamsport, Penn., Censitive Plant this plant opens its leves at sunriz and cloees them at sunsett or wen teched.

The exhaustion of the British coal-fields proceeds at the rate of nearly one hundred million tons per anum, or five times the present product of the American mines. On the other hand, the extent of the American coal-fields is more than twelve time that of the British.

"Will you allow me, sir, to offer you a cigar?" "Thank you, but I never smoke." Have you any objection to my lighting one, sir?" "Oh no, none in the least." This plan is infallible, with the most Puritanical looking fellow-traveler. Never think of putting the second question first. The production of the cigar and the generous offer are sure to disarm all crusty objection.

As a schoolmaster was employed, a short time since, in Scotland, in his delightful task of teaching a chary urchin to cypher on the slate, the precocious pupil put the following tough question to his instructor: 'Whaur did a' the figures gang till when they're rubbit out?'

A woman living in New Britian Conn., one day lately became exceedingly enraged at her husband, and rushing out-doors, sat down in a snowbank to punish *him*. After sitting there till she was nearly frozen, and discovering that her unnatural husband did not seem to suffer in the least, she got up and went into the house.

"Why, Mary, my dear, how is this, I find you sitting here so comfortably with your husband; you told me this morning you had quarrelled, and he had gone for a sailor?" "I, father! I told you nothing of the kind," "Oh, nonsense! I am sure you said you had some words together." "Yes, father, and so we had. He asked me what o'clock it was; I said I didn't know; and so he left the house, saying *he was going to see?* That's all I told you."

A preacher was once during his sermon annoyed by some dogs in the church. He stopped and ordered them to be turned out. When service was over, one old woman said to another, "An' how did ye like the Doctor the day?" "Aoh, but he was gran'!" she replied. Did ye understan' him?" inquired her companion. "The Lord forbid," she answered, "that I should hae sic presumption: but wasn't he bonnie on thae dogs?"

SCHENCK'S MANDRAKE PILL.

A certain Cure for Diseased Liver and the many Dangerous Maladies which are caused by a morbid condition of that organ.

To give the public a clear understanding of the mode in which SCHENCK'S Mandrake Pills produce these wonderful effects which are attested by thousands of reliable witnesses, we present a brief

DESCRIPTION OF THE HUMAN LIVER

and its functions, which will make the operation of this popular medicine perceptible to every man's understanding.

The liver is supplied with blood vessels, nerves and absorbents. One of its obvious uses is to secrete and prepare the bile. It likewise filters the blood and separates that fluid from all impurities. How indispensably necessary to health is the proper performance of this function! If the liver is diseased, it cannot purify the blood, and if that is sent back through the lungs, brain, and other parts in a morbid condition, it must cause jaundice, biliousness, obstruction of the kidneys, gravel, and many other complaints more or less painful and dangerous, but the least of them quite enough to make a man sick and uncomfortable, and unfit for the performance of any of the duties of life. This unhealthy state of the system very often ends in pulmonary consumption.

The circulation of the blood is conducted in this manner: The heart sends the vital current down through the arteries; it passes through the flesh, taking up all impurities in its progress; then the stream of blood flows backward through the veins, and passes to the liver to be purified. It is impossible to cure consumption, scrofula, or scarcely any other kind of ulceration, while that important organ, the liver, is diseased. It is for that reason that "regular physicians" rarely cure consumption. They usually begin their treatment with the use of some cough medicine, the basis of which is morphia or opium in some shape, which locks up the liver instead of relaxing the secretions, giving a tone to the stomach, and producing a healthy flow of bile. Dr. Schenck's

Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills,

will strengthen the system, purify the blood, and ripen and heal ulcers on the lungs.

A volume would be required, to give a brief account of the remarkable cures performed by Dr. Schenck's medicines, viz., Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, all of which are accompanied by full directions for the use of them.

DR. SCHENCK will be professionally at his rooms every week, 32 Bond Street, New York, and 38 Hanover Street, Boston, from 9 A. M. until 3 P. M. He gives advice free; but for a thorough examination with the Respirometer the charge is five (5) dollars. His medicines are for sale by all druggists and dealers. Also a full supply at all times at his rooms. Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents per box.

GEO. C. GOODWIN & CO., 38 Hanover Street, Agents for Boston. For sale by all druggists.

GOODS LOANED

On Weekly or Monthly Payments.

THE system of furnishing Goods upon Weekly or Monthly Payments is peculiar to my establishment. It is invaluable to persons of limited means, who wish to commence housekeeping or replenish their dwellings, but who have to earn their money to do it, and still support their families. The system has worked so safely that it is in constant practice at my Emporium on Broad street.

The System Contemplates Two Things.

FIRST—The accommodation of persons having a stated limited income, and also those who desire to use their money and pay instalments from its earnings. They can have the use of my property until by weekly or monthly payments they make it their own.

SECOND—The perfect security of myself against losses. The goods are loaned to me and located, and hence cannot be moved without my consent—The fee of the goods being in myself, I can call for them at any moment. This ensures a promptness of payment according to the terms of agreement for their use until paid for, when they become the property of the user, by a regular bill of sale. The contract is drawn legally, and its violation by the removal of the goods or their attempted sale, would subject the person doing it to heavy penalties.

These two features secure to me safety, and to my customers cheapness of price. They do not have to pay for losses incurred through others. Besides the system secures a good class of customers, and I am enabled to benefit the worthy whose means are limited, and not injure myself, or interfere with cash transactions

I have as ever the best assortment of

Local Intelligence.

UNION REPUBLICAN CAUCUS.—The Caucus on Saturday evening was held in Aquidneck Hall, the State House not affording sufficient capacity, in view of the excitement growing out of the previous meeting. Though there was a drizzling rain at the time, the room was filled to overflowing, and it was evident from the first that the interest in the occasion had in no wise abated. Both wings of the party were out in full force, and there was, beside, a liberal sprinkling of Democrats.

The meeting was called to order by F. A. Pratt Esq., who had been chosen chairman of the city committee at this its first organization. Hon. R B. Cranston was put in nomination for chairman of the meeting by the straight Republicans, and Hon. W. J. Swinburne by the Conservatives and their Democratic allies. After much hesitation the question was first taken on the nomination of Mr. Cranston.

Mr. Pratt announced himself unable to decide whether the *ayes* or *noes* had it, and said it would be necessary to take a hand vote. A gentleman in the Hall arose and said this was a Republican Caucus and he hoped that none but Republicans would attempt to vote. Mr. Pratt, though admitting it to be a Republican meeting responded that he could not as chairman, presume to decide as to who were or were not qualified in this respect. It was a matter that must be left to every man's own conscience. This decision which virtually threw the meeting open to all, irrespective of party awakened much feeling. A good deal of confusion followed for a few moments. Order was finally secured, and the chairman called for Messrs. Randall Pullen and Wanton T. Sherman to come upon the platform and assist in counting the votes. This they did and a hand vote was taken. A perfect sea of hands went up for Cranston, which having been counted the Noes were called for showing a very decided minority, and after some delay, Mr. Cranston was declared the chairman of the meeting amid thunders of applause.

Mr. Cranston, on taking the chair stated that the object of the meeting was to elect delegates to the Republican State and Congressional Conventions to assemble in Providence on the 22d inst'ant, and as this was a Republican Convention, he trusted that no gentleman opposed to them in politics would presume to vote on the questions for which the meeting had been called or take any part whatever in the proceedings.

Order and quiet now reigned in the hall, and Mr. Robert S. Barker was chosen Secretary without a dissenting vote.

Immediately after, the following gentlemen were on the nomination of Col Tew, elected Delegates, also without a dissenting voice: Henry H. Fay, Randall Pullen, Col. William A. Stedman, Dr. Henry E. Turner, Clark H. Burdick, John. H. Greene.

It was voted that the Committee be allowed to fill vacancies.

It was subsequently voted that the City Committee, which had been tried for a year or so as an experiment, be dispensed with, and it was accordingly abolished.

Mr. H. H. Fay was then called for. He came forward and in a brief speech congratulated the Republican party on its escape from the snare that had been laid for it, and in which its members had become well nigh entangled. He regarded it as providential that the other meeting had been called as it was, for it revealed the animus of the movement with which they had to contend. He also referred to other matters of interest to the party and sat down amid the cheers of the audience.—Other gentlemen were called for but as none of them responded the meeting adjourned after a vote of thanks to the officers.

The delegates elect are all staunch Republicans of the progressive school and will, no doubt, properly represent the party in Newport. They received no instructions as to their course in Convention, but the spirit of the meeting was such as to leave no doubt concerning the wishes of their constituents. No man who ranks as a Conservative need expect their support.

One of the results of this caucus will doubtless be the overthrow of the coalition heretofore existing between certain branches of the two great political parties. The arrangement of the past few years has never been satisfactory to the masses and it cannot now be resumed. Our Conservative friends must henceforth act either with the Republicans or Democrats as such, as the middle or neutral ground is entirely broken up. There is a general feeling of relief at the result.

RELIGIOUS.—Rev. S. C. Brown D. D. Presiding Elder of the Providence District of the Methodist Episcopal Church held the last quarterly meeting for the present Conference year in this city yesterday. In his report of the spiritual condition of the churches under his supervision it was stated that extensive revivals are in progress in different towns. In Warren nearly two hundred conversions have occured within a few months, while in Little Compton there have been about one hundred, in Pleasant street church New Bedford one hundred and fifty, in Bristol a large number and in various other places an unusual interest is manifested. It is expected that the churches will report a large increase in membership at the coming session of the conference which occurs next month in Providence.

CHIVALRIC LEGISLATION.—The Legislature of Kansas has amended the constitution of that State so as to extend the right of suffrage to women as well as men. This is a bold and brilliant feat. The dawn of political freedom for women, ominous or auspicious, as the case may be, breaks this time in the West. The course of civilization, contrary to usage and tradition, will have to be against the sun, to bring the daughters of the East like political privileges.

ROYCE ON THE CAUCUS.—A man who had been to the caucus, Saturday evening, afterwards attended another meeting in a very small room, where he complained of the foul air and ill ventilation. The presiding officer admitted that the air must indeed be foul when a man direct from the atmosphere of a political caucus could sense it.

REVELLING.—John Adams and John Cleary were arrested for drunkenness and revelling, last night about half past 10 o'clock, in Bull's Court. Adams and Cleary were arraigned this morning before Justice Topham, plead guilty, were fined $3 and costs, each, which they paid and were discharged.

The best place to buy Fine Clothing is at Kingsley & Sons, Lyceum Building Prov., as they have marked down their goods, from 30 to 50 per cent. Regardless of Cost. Read the Chronicles.

j17 Claim Agent.

Latest News

NEW BASIS OF RECONSTRUCTION.

WASHINGTON, Feb. 17.

Universal suffrage throughout the South, with the protection of every resident, and a definite system of political reconstruction can be secured by a bill which was passed by the Senate at sunrise this morning, after a second night session.

This bill differs from the House bill in three essentials. It gives to the President of the United States, instead of Gen. Grant, the assignment of the military commanders of the Southern Districts. It allows United States Judges to issue writs of habeas corpus in the rebel States, and it adds the Blaine amendment in a modified form, changing its arrangement somewhat, but embracing the leading and essential features which it contained when Mr. Blaine originally offered it to the House.

The unqualified establishment of negro suffrage was objected to in the Senate caucus, it is understood, by some of the Western Senators, and was finally carried by one majority, after an eloquent speech from Mr. Wilson.

The bill will be brought before the House on Monday, when there will doubtless be a warm contest over it. Mr. Thad. Stevens, with a view of the most ultra Radicals will oppose its passage, as they have announced to-day, but there are indications that it will be carried, and that President Johnson will then carry it into execution as one of the laws of the land.

—o—

FROM EUROPE.

Serious Fenian Revolt in Ireland—Riot and Pillage the Order of the Day—800 Fenians in the Hills near Killarney.

[BY ATLANTIC TELEGRAPH.]

LONDON, Feb. 14—evening.—Government denies the wide-spread story of the landing of a ship load of Fenians at Valentia, and in the Shannon. That there has been a serious revolt at and near Killarney is admitted. The telegraph wires near Valentia were cut and destroyed for a long distance and in all directions.

Riot and pillage are the order of the day, and several establishments have been sacked, and a coast guard and policeman killed.

LONDON, Feb. 15, noon.—About 800 Fenians, under command of Col. O'Connor, retreated to the hills lying near Killarney, County Kerry. The British government has posted troops, under command of Col. Horsford, at Mallow Junction, in Cork county, commanding the hill district. The excitement in the neighborhood is intense, and many people living in those counties are precipitately leaving.

An ex-Capt. of the U. S. volunteer army has been arrested at Killarney on suspicion of being a Fenian leader.

A large number of marines from Plymouth received orders to depart for the insurrectionary districts of Ireland at once.

—o—

THE PRESIDENT'S ABANDONMENT OF HIS "POLICY."

That the President has signified his desire to co-operate with Congress in the enactment of a law for the better government of the South, and his willingness to abandon his reconstruction policy, is well known. It is also certain that General Pope and Mr. W. Wallace Worden, a journalist, who is the President's mouthpiece, have on several occasions represented Mr. Johnson in conferences with Messrs. Bingham, Buckland, Delano and Hubbell of Ohio, Raymond, Dodge, Laflin and Ketchum of New York; Blow of Missouri, and others; but no member from New England has attended these conferences.

Presidential Succession.

The House passed a bill, which fixes the order of succession to the Presidency, in case of a vacancy, as follows: After the Vice President comes the President of the Senate; the Speaker of the House; The Chief Justice of the Supreme Court and the Associate Justices oldest in commission.

—o—

KANSAS.

THE COLORADO VETO.

TOPEKA, Jan. 15.—Resolutions expressing surprise at the veto of the Colorado bill, and calling upon Senators and Representatives to pass the bill over the President's veto, passed both branches of the Legislature under suspension of the rules to-day.

—o—

IMMENSE SALE OF COAL.

NEWBURGH, N. Y., Feb. 15.—The Pennsylvania Coal Company sold yesterday over 200,000 tons of Pittston coal at prices varying from $4 25 to $5 40 per ton. This coal is delivered at the works of the company in this city, and the price is a decline of from $7 1-2 cents to $1,62 1-2.

—o—

ARRIVAL OF THE SWATARA WITH JOHN H. SURRATT.

FORTRESS MONROE Feb. 17.

The pilot-boat Wm. Starkey reported this morning having spoken the Swatara at Cape Henry, with Surratt on board, from Alexandria via Lisbon, bound to Washington. A barque rigged gunboat, supposed to be the Swatara, was seen at daylight this morning, anchored near Willoughby's spit lightship. The pilot-boat Maryland put a pilot on board at 8 o'clock, when she got under way and proceeded up Chesapeake Bay.

Fanning, 71 2d St. N. Y. Piano $150; Mrs. G. Parker, Boston, Mass., Gold Watch, $100.

A Chance to draw any of the Above Articles by purchasing a Sealed Ticket for 25 cents.

OPINIONS OF THE PRESS

THE NEW YORK PRIZE ASSOCIATION advertise their scheme in our columns to-day. Their offers are tempting to those who have a weakness for lotteries. The original investment is but twenty-five cents, and this entitles every one to *something*. If, on ascertaining what that something is, the subscriber chooses to pay one dollar for expenses, he can obtain the article drawn. We have reason to believe that this association is one of substance and good faith. Much capital is behind it, and the plan upon which operations are conducted, is calculated to draw a large share of business. *As an example of the good faith of those who manage it*, we may state that a lady of our acquaintance last week DREW A GOLD WATCH, which WAS PROMPTLY FORWARDED TO HER. The thing is worth trying at all events.—*Sunday Times*, Boston, Jan. 13, 1867.

This not a "Lottery Swindle," offering "Houses and Lots," and "$10 000 in Greenbacks," as some do *who never put such tickets in the wheel, and who do not give one prize in 1000 tickets.* Messrs. Ray & Co. distribute thousands of prizes, varying in value from $100 to $500. They draw every day, and no ticket drawn less than one dollar in value. YOU WILL KNOW WHAT YOUR PRIZE IS BEFORE YOU PAY FOR IT. We know the firm personally, and have witnessed their mode of doing business. Purchasers receive the article drawn without delay or postponement.—*Gazette*, N. Y., Dec. 3, 1866.

Entire Satisfaction Guaranteed to All.

Six Tickets for One Dollar, 13 for Two Dollars, 33 for Five Dollars. Great inducements to Agents.

All letters should be addressed to

J. H. RAY & CO.

599 Broadway, New York.

DIRECTIONS FOR

MAKING YOUR OWN SOAP

With Your Waste Grease.

Fenn'a Salt Manufacturing Co's RENOWNED

Saponifier!

(Patents of 1st and 8th Feb., 1859.)

OR

CONCENTRATED LYE.

2 Cents only for every pound of Soap.

DIRECTIONS.

Dissolve one box of Lye in 2 1-2 pounds (pints) of hot water, in an iron pot. Melt in another pot or pan 5 lbs. of clean fat or grease. Take off the fire, and into this stir slowly the dissolved lye, and keep stirring until the whole becomes well mixed and like mola-ses. Now cover up, and set in a warm place over night. Next day cut up into small pieces, add 6 lbs (or pints) of water, and melt with a gentle heat until the soap is all dissolved, then pour into a tub to cool. When cold cut into bars, which will be fit to use in about 10 days.

BEWARE OF COUNTERFEITS.

Be particular in asking for Fenn'a Salt Mfg. Co's Saponifier.

This Company, now fully organized, having complied with the laws of N. Y. State, and deposited $100,000 of its capital, with the Superintendent of the Insurance Department for the security of its policy-holders, is now prepared to issue the various kinds of policies on as favorable conditions as those of any other Company.

Dividends increase with the age of the Policy.

Non-participating rates are lower than those of any Company in the World.

Losses paid in thirty days after due notice and proof of death.

Liberal arrangements made in regard to travel.

One third the amount of premium will be loaned the policy-holder when desired.

Liberal arrangements made with good Agents.

FIRE! FIRE! FIRE!

DELAY MAKES THE DANGER. The new Fires have only been met by means *too costly, too bulky, and too cumbrous.* The time lost in sending for an engine and getting it into working order has often proved a fatal delay. The EXTINGUISHER, a self acting portable Fire Engine, is inexpensive, and so simple in its construction that the mere turning of a cock puts it into full action. *Warranted harmless to life, health, and property.* Always ready for its use. So portable that a man carries it within a few minutes distance to active exertions. *For Manufactories, Warehouses, Railway Depots, Public Buildings, Hotels, and Private Residences,* it is indispensable, and for *Steamboats and Sailing Vessels* it is as surely necessary as a *life boat* or a *life preserver.* It occupies but little space, contains a chemical liquid (perfectly harmless), and is soundly efficacious at any lapse of time. So simple that a boy can charge or manage it.

Send for a Circular.

THE ONLY REMEDY KNOWN FOR

DIABETES,
STONE IN THE BLADDER, CALCULUS, GRAVEL, BRICK DUST DEPOSIT, AND MUCOUS OR MILKY DISCHARGES AFTER URINATING.

IRRITATION OF THE NECK OF THE BLADDER, INFLAMMATION OF THE KIDNEYS, CATARRH OF THE BLADDER.

STRANGUARY AND BURNING, OR PAINFUL URINATING.

For these diseases it is truly a sovereign remedy, and too much cannot be said in its praise. A single dose has been known to relieve the most urgent symptoms.

Are you troubled with that most distressing pain in the small of the back and through the hips? A teaspoonful a day of the Constitution Water will relieve you like magic.

PHYSICIANS

Have long since given up the use of buchu, cubebs and juniper in the treatment of these diseases, and only use them for the want of a better remedy.

CONSTITUTION WATER

Has proved itself equal to the task that has devolved upon it.

DIURETICS

Irritate and drench the kidneys, and by constant use soon lead to chronic degeneration and confirmed disease.

We present the Constitution Water to the public with the conviction that it has no equal in relieving the class of diseases for which it has been found so eminently successful for curing; and we trust that we shall be rewarded for our efforts in placing so valuable a remedy in a form to meet the requirements of patient and physician.

Stroudsburg, Jan. 20, 1866.

Dr. Gregg:

Dear Sir:—I wish to inform you that I have been under the treatment of some of our best physicians for nearly two years, without receiving any benefit. I had lost all confidence, and I indulged in but little hope of a cure from any source. My disease was Dropsy, and my physicians told me there was no cure for me. I was tapped some fifty times, and at the different operations about 1200 pounds of water was removed.

I am happy to inform you that I have been completely restored to health by the use of Constitution Water.

I make this statement hoping it may reach those persons who may be similarly afflicted.

Respectfully,
Mrs. MARGILE C. LEVANWAY.

IN DYSMENORRHŒA, OR PAINFUL MENSTRUATION, AND MENORRHAGIA, OR PROFUSE FLOWING.

Both diseases arising from a faulty secretion of the menstrual fluid—in one case being too little and accompanied by severe pain, and the other a too profuse secretion, which will be speedily cured by the Constitution Water.

That disease known as FALLING OF THE WOMB, which is the result of a relaxation of the ligaments of that organ, and is known by a sense of heaviness and dragging pains in the back and sides, and at times accompanied by sharp, lacinating or shooting pains through the parts, will in all cases, be removed by the medicine.

There is another class of symptoms arising from IRRITATION OF THE WOMB, which physicians call nervousness, which word covers up much ignorance, and in nine cases out of ten the doctor does not really know whether the symptoms are the disease, or the disease the symptoms. We can only enumerate them here. I speak most particularly of Cold Feet, Palpitation of the Heart, Impaired Memory, Wakefulness, Flashes of Heat, Languor, Lassitude, and Dimness of Vision.

READ! READ!! READ!!!

Danville, Pa., June, 1862.—*Dr. Wm. H. Gregg—Dear Sir*:—In February, 1861, I was afflicted with sugar diabetes, and for five months I passed more than two gallons of water in twenty four hours. I was obliged to get up as often as ten or twelve times during the night, and five months I lost about fifty pounds in weight. During the month of July, 1861, I procured two bottles of Constitution Water, and in two days after using it I experienced relief, and after taking two bottles I was entirely cured, soon after regaining my usual good health.

Yours truly, J. V. L. DE WITT.

Boston Corners, N. Y., Dec. 27, 1861.—*Wm. H. Gregg & Co.—Gents*:—I freely give you liberty to make use of the following certificate of the value of Constitution Water, which I can recommend in the highest manner:—My wife was attacked with pain in the shoulders, whole length of the back, and in her limbs, with *palpitation of the heart and irritation of the bladder*. I called a physician, who attended her about three months, when he left her worse than he had found her. I then employed one of the best physicians I could find, who attended her for about nine months, and while she was under his care she did not suffer quite as much pain. He finally gave her up, and said "*her case was incurable. For*," said he, "*she has such a combination of complaints that medicine given for one operates against some other of her difficulties.*" About this time she commenced the use of Constitution Water, and to our utter astonishment, almost the first dose seemed to have the desired effect, and she kept on improving rapidly under its treatment, and now superintends entirely her domestic affairs. She has not taken any of the Constitution Water for about four weeks, and we are happy to say that it has produced a permanent cure.

WM. M. VAN BENSCHOTEN.

Wethersfield, Conn., March 2, 1863.—*Dr. W. Gregg.—Dear Sir*:—Having seen your advertisement of Constitution Water, recommended for inflammation of the Kidneys and Irritation of the Bladder, having suffered for the past three years, and tried the skill of a number of physicians with only temporary relief, I was induced to try your medicine. I procured one bottle of your agents at Hartford, Messrs. Lee, Sisson & Co., and when I had used half of it, to my surprise, I found a great change in my health. I have used two bottles of it, and am where I never expected to be in my life, well, and in good spirits. I cannot express my gratitude for it; I feel that it is all and more than you recommend it to be. May the blessing of God ever attend you in your labors of love.

Yours truly,
LEONARD S. BIGLOW.

Ja6meow, New York

$500 WILL BE FORFEITED BY DR. L DIX if failing to cure in less time than any other physician, more effectually and permanently, with less restraint from occupation or fear of exposure to all weather, with safe and pleasant medicines.

SELF-ABUSE AND SOLITARY HABITS.
Their effects and consequences;
SPECIAL AILMENTS AND SITUATIONS
Incident to Married and Single Ladies
SECRET AND DELICATE DISORDERS;

Mercurial Affections; Eruptions and all Diseases of the Skin; Ulcers of the Nose, Throat and Body; Pimples on the Face; Swellings of the Joints; Nervousness; Constitutional and other Weaknesses in Youth, and the more advanced, at all ages, of

BOTH SEXES, SINGLE OR MARRIED.

DR. L. DIX'
PRIVATE MEDICAL OFFICE,
21 Endicott Street, Boston, Mass.,

is so arranged that patients never see or hear each other. Recollect the ONLY entrance to his Office is No. 21, having no connection with his residence, consequently no family interruption, so that on no account, can any person hesitate applying at his office.

DR. DIX

boldly asserts (and it cannot be contradicted, except by Quacks, who will do or say anything, even perjure themselves, to impose upon patients) that he

IS THE ONLY REGULAR GRADUATE PHYSICIAN ADVERTISING IN BOSTON.

SIXTEEN YEARS

engaged in treatment of Special Diseases, a fact so well known to many Citizens, Publishers, Merchants, Hotel Proprietors, &c., that he is much recommended, and particularly to

STRANGERS AND TRAVELLERS.

To avoid and escape Imposition of Foreign and Native Quacks, *more numerous* in Boston than other large cities.

DR. L. DIX

proudly refers to Professors and respectable Physicians—many of whom consult him in critical cases, because of his acknowledged skill and reputation, attained through so long experience, practice and observation

AFFLICTED AND UNFORTUNATE!

be not robbed and add to your sufferings in being deceived by the lying boasts, misrepresentations, false promises and pretensions of

FOREIGN AND NATIVE QUACKS,

who know little of the nature and character of Special Diseases, and LESS as to their cure. Some exhibit forged Diplomas of Institutions or Colleges which never existed in any part of the world; others exhibit Diplomas of the Dead, how obtained, unknown; not only assuming and advertising in names of those inserted in the Diplomas, but to further their imposition assume names of other most celebrated Physicians long since dead. Neither be deceived by

QUACK NOSTRUM MAKERS,

through false certificates and references, and recommendations of their medicines *by the dead*, who cannot expose or contradict them; or who, besides, to further their imposition, copy from Medical books much that is written of the qualities and effects of different herbs and plants, and ascribe all the same to their Pills, Extracts, Specifics &c., most of which, if not all, contain Mercury, because of the ancient belief of its "curing everything," but now known to "kill more than it cures," and those not killed, constitutionally injured for life.

IGNORANCE OF QUACK DOCTORS AND NOSTRUM MAKERS.

Through the ignorance of the Quack Doctor, knowing no other remedy, he relies upon Mercury, and gives it to all his patients in Pills, Drops, &c., so the Nostrum Maker, equally ignorant, adds to his so-called Extracts, Specific, Antidote, &c., both relying upon its effects in curing a few in a hundred, it is trumpeted in various ways throughout the land; but, ALAS! nothing is said of the balance; some of whom die, others grow worse, and are left to linger and suffer for months or years, until relieved or cured, if possible, by competent physicians.

BUT ALL QUACKS ARE NOT IGNORANT.

Notwithstanding the foregoing facts are known to some Quack Doctors and Nostrum Makers, yet, regardless of the life and health of others, there are those among them who will perjure themselves, contradicting giving mercury to their patients or that it is contained in their Nostrums, so that the "usual fee" may be obtained for professedly curing, or "the dollar" or "fraction of it" may be obtained for the Nostrum. It is thus that many are deceived also, and uselessly spend large amounts for experiments with quackery.

DR. L. DIX'S

charges are very moderate. Communications sacredly confidential, and all may rely on him with the strictest secrecy and confidence, whatever may be the disease, condition or situation of any one, married or single.

Medicines sent by Mail and Express to all parts of the United States.

All letters requiring advice must contain one dollar to insure an answer.

Address Dr. L. Dix, No. 21 Endicott Street, Boston, Mass.
Jan 5—3taw—1 year.

TO THE LADIES.—The celebrated DR. L. DIX particularly invites all who need a *Medical or Surgical* adviser, to call at his Rooms, No. 21 Endicott Street, Boston, Mass., which they will find arranged for their special accommodation.

Dr. DIX having devoted over twenty years to this particular branch of the treatment of all diseases peculiar to females, it is now conceded by all (both in this country and in Europe) that he excels all other known practitioners in the safe, speedy and effectual treatment of all female complaints.

His medicines are prepared with the express purpose of removing all diseases, such as debility, weakness, unnatural suppressions, enlargements of the womb, also, all discharges which flow from a morbid state of the blood. The Doctor is now fully prepared to treat in his peculiar style, both medically and surgically, all diseases of the female sex, and they are respectfully invited to call at

No. 21 Endicott Street, Boston.

All letters requiring advice must contain one dollar ensure an answer.

j 28

Peerless Cooking Stove.

Here is the opinion of the editor of the Boston *Journal*.—We have been very much pleased in examining a stove of this pattern, manufactured by Messrs. Pratt & Wentworth of Roxbury for the Paris Exposition, at the store of W. F. Shaw & Co., 369 Washington Street. It is one of the most beautifully finished articles of kitchen furniture we have ever seen, the mouldings being steel finished, the knobs and handles silver plated, the tank and hot closet are made of German silver, all the hollow ware used on the stove is finely enamelled, and the tea-kettle is of burnished copper.

Among the peculiar merits claimed for this stove is the complete ventilation and even temperature of the oven, making it a roasting rather than a baking oven, which is secured by a peculiarly constructed air-chamber, which heats the air as it passes down behind the fire pot and into the oven, causing the oven to bake or roast perfectly and evenly, a great desideratum with a careful housewife; the perfect control which can be kept over the fire, and its cleanliness. This stove works equally well with coal or wood. These stoves are of different sizes, and are made plain or with an extension top, the latter being made with a large reservoir for hot water on the top, and a warming closet underneath. Those of our readers who would like to keep up with the times would do well to call and examine this "Peerless stove."

American and Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS.

Late Agent of U. S. Patent Office, Washington, (under the Act of 1837,)

76 State Street, opposite Kilby, st., BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain France and other foreign countries. Caveats, Specifications Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Invention—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of Inventions.

During eight months the subscriber, in the course of his large practice, made on twice rejected applications, SIXTEEN APPEALS; EVERY ONE of which was decided in his favor by the Commissioner of Patents.

R. H. EDDY.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners, with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent office.

EDMUND BURKE.
Late Commissioner of Patents.

"Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.

AMERICAN ORGANS.

[From "Godey's Lady's Book," February, 1866.]

—o—

REED ORGANS, &c.

The following remarks [illegible] relative to this immensely po[illegible] instrument will doubtless interest and profit very many of our readers; we commend the article to their careful perusal:

A hundred and one makers of Organs, Cottage, Parlor, Cabinet, American, School Organs, etc., etc., are each claiming to make the best instrument in the world. Being comparatively a new instrument, as at present constructed, we are convinced the public are much less capable of judging of its merits, or demerits, than of most other instruments. [illegible]

The question is often asked, What are "reed organs?" We answer, they are in most cases, nothing in the world but the old melodeon in disguise. Many of the so-called organs have the same bellows, the same reeds, and the same general internal arrangement. With the bellows turned on edge to gain room, they have simply put on a more pretentious exterior, and a more high-sounding name. But an organ, to be in reality an organ must have a wind-chest or reservoir for air, separate from the bellows room, into which the reeds open and the tone has room to expand and perfect itself into the air, round tone, similar to the flute or pipe organ, even, smooth, firm, and mellow; and this is the kind of tone cannot be obtained in any other way known. Nothing so annoys a true organist as to have the volume of sound swelling and jerking spasmodically with every variation of force on the bellows, which is always the case where the reeds open direct into the bellows or any chamber, instead of a wind chest or sound-box. And yet some makers even go so far as to claim this [illegible] the jerking of the bellows on the reeds [illegible], just as though they did not know that it takes very soon throw the reeds out of tune, and injure the bellows; and as though it were not an easier matter to obtain a much better and more easily managed swell by other methods. The truth is, any organ, so called or melodeon, which has the wind acting directly upon the reeds, is nothing more nor less than a huge accordeon, dress it up as you may. And when organists and true musicians become aware of the fact that they can obtain those that are organs in fact as well as in name, they will buy no more of the objectionable ones. Then again the swell should always be separate and distinct from the bellows, so as not to be acted on by the hard or soft blowing, but convenient, so that the player can use it with the knee, separate from the hands or feet, and thus always under easy control, to be used at pleasure.

The large double bellows, or double bellows, is also a very important improvement. By this means not only can the wind be supplied more evenly, but with far greater ease to the performer, from the fact that either bellows alone will be sufficient for the lighter melodies, thus enabling the player to change about and rest the feet at will; then, if the bellows is of the requisite large size, and having the wind-chest or reservoir, as well as well. As to the reeds, they must be excellent in tone and voice, or all the other good qualities in the world cannot produce a good toned instrument. The inquiry now very naturally arises, where can the organ be procured combining all these essential and desirable qualities?—There is only one possessing all these points, and that is the AMERICAN ORGAN, made by S. D. & H. W. SMITH, of Boston, SIBERIA OTT, Wholesale Agent, 581 Broadway, New York. These organs have a wind-chest extending the whole length of the instrument, and so constructed as to act at the same time as a reverberating sound-box or board, and having the same important relation and part to perform that the sounding board has to the piano. This feature the makers have patented, and to it are owing in a great measure the entirely unequaled full incessant richness of tone so highly prized by all who have used these organs. They also have the largest and best divided bellows in use, which is another important feature. No part of their work is slighted, no expense or pains spared to make the American Organs perfect musically, as well as mechanically, and, judging from the immense sale of them at present, they bid fair to long maintain the proud position they have won by superior merit alone. We would most heartily advise all interested to call upon or address Mr. SIBERIA OTT, the Wholesale Agent, at 581 Broadway, New York, and can assure them he will, in the most gentlemanly and truthful manner, impart to them all the information they may desire, and send them descriptive circulars, relative to this truly delightful instrument.

TO

MUSIC TEACHERS AND DEALERS.

Mrs. E. C. STANHOPE, sole Agent in Newport and vicinity for these superb instruments, one of which can be seen for the present at No. 53 Farewell street, head of Thames.

S. D. & H. W. Smith's

AMERICAN ORGANS

THE MOST PERFECT AND BEAUTIFUL

MUSICAL INSTRUMENT IN THE WORLD FOR THE

AMERICAN HOME CIRCLE.

The American Organ

Makes home attractive, refines and elevates the minds of all, beautiful in appearance and effects,

SIBERIA OTT,

581 Broadway, New York, Wholesale Agent,

The immense popularity of these Organs, and their superior Musical Powers, is fast bringing them before the public, as the instrument so long desired in AMERICAN HOMES. And although the cost price is but a trifle over the Melodeon, yet the musical advantages, beauty of tone and quickness of touch and action are so far superior, that they are fast superceding the Melodeon and the call is now almost exclusively for the

AMERICAN ORGANS.

It is adapted to any Music from the quickest and most lively, to the heavy tone of the Church Organ. And almost universally they are preferred to the Piano, by persons who have them, yet costing less than half, and only taking a small amount of room.

Send for descriptive circular giving full particulars and prices.

Exclusive Agencies secured to Dealers, and large discounts to the trade and Teachers. Address all orders, SIBERIA OTT, Wholesale Agent, 581 Broadway, New York.
